DESCRIPTION OF THE QUALITY

Material of the covers of the footstools and blankets:

95% acryl + 5% elastic yarn

The covers have an outstanding performance against the elements. The are water-repellent and always keep their colour, even when exposed to UV light, swimming pool water and see water.

Material footstool:

Palla, Stella and Max: Acrylic fabric from the brand "Sunbrella", water-repellent with superb colour resistance properties, filled with synthetic balls.

Rocca: Polyether foam designed for outdoor applications. Thanks to the open cell structure this foam dries very quickly after becoming wet. It is standard treated with biocide against bacteria and mould fungi and obtained the Europur Certi Pur TMlabel.

Dimensions: See overview.

Production method covers and blankets: Each piece knitted to order.

Models with mention of measurements (in cm - approx)	Width	Depth	Height
Rocca small	44	44	38
Rocca medium	53	53	45
Palla small	50	50	36
Palla medium	60	60	44
Stella	90	90	36
Max	90	90	90

POSSIBILITIES COLLECTION

Patterns: The covers are available in one standard design (linea). Other designs are not possible.

Measurements and shapes: The collection consists of fixed measurements and shapes. It is not possible to deviate from these.

Deviations to size and shape: Rocca measurements and shapes can differ slightly. The footstools with loose filling (Palla, Stella, Max) have a flexible shape which adapts to the load put on it. Consequently, measurements are only approximate.

Standard colours: The covers and blankets are produced in different colours, either one uni colour or in a combination of two colours.

Non standard colours: Not possible.

SPECIFIC USER INSTRUCTIONS

The bonnet footstools can be used with or without a cover. The flexible shapes (Palla, Stella, Max) as well as the fixed shape (Rocca) were designed also to be used without cover.

In the max shape, one can adapt a more sitting or reclining position. To do this, place the max in a more upright or more lying down position prior to sitting down.

SPECIFIC MAINTENANCE INSTRUCTIONS

The covers and blankets can be washed according to wool washing directions. Washing by hand is recommended.

Cold bleaching is not possible. Do not dry in a tumble drier. Warm (not hot) iron.

The footstools themselves of the rocca type can easily be washed on the surface using a neutral detergent.

The footstools of the type palla, stella and max can also be washed on the surface only with neutral detergents.

It is not the intention for the covering to be washed separately, considering the filling consists of little balls which are hard to take out and hard to replace afterwards.

TEST RESULTS

Bonnet Covers

Colour resistance

	Values	Max value	Standards
Colour fastness UV	7/8	8	ISO 105 B02
Colour fastness weather conditions	7/8	8	ISO 105 B04
Colour fastness to chlorinated water (swimming pool)	5	5	ISO 105 E03
Colour fastness to sea water	4-5	5	ISO 105 E02

Sunbrella acrylic fabric poufs (Palla,Quadrato, Stella, Max)

Colour resistance

	Values	Max value	Standards
Colour fastness UV	7/8	8	ISO 105 B02
Colour fastness weather conditions	7/8	8	ISO 105 B04
Colour fastness dry friction	5	5	ISO 105 X12
Colour fastness wet friction	5	5	ISO 105 X12

Abrasion (Martindale) 10 000 mb cycles ISO 12947-2
